Watch it!
Dear Colleagues, Funders and Friends:

Thank you so much for helping to make ABLE 2013 an overwhelming success! We thoroughly enjoyed planning and hosting this conference, bringing together 235 attendees from eight provinces across Canada and three US states. Your evaluations told us you felt the conference was insightful, thoughtful, current and excellent (just to name a few).

Our theme “Fostering Financial Empowerment” captured the collective essence of our many highly qualified speakers, practitioners, politicians and people with lived experience who work hard every day to break down barriers and construct new solutions to provide better opportunities for everyone.

And now we’re counting on you. Take your inspiration and step out with a new idea, forge a new partnership and share your new-found knowledge with people around you. ABLE was a great experience but it’s what happens in between conferences that really matters.

Poverty can be out-maneuvered and you’re just the people to help make that happen.

Thank you again and we’ll look forward to seeing you the next time,

Donna McBride

ABLE 2013 Conference Chair
Thank you to our Sponsors

The ABLE Planning Committee would like to extend a big thank you to our generous funders and sponsors who made ABLE 2013 possible.

Poverty Costs 2.0: Investing in Albertans
Professional Tools
**Tools**

**Resources**

Financial Consumer Agency of Canada  
Their website includes unbiased Canadian financial information and great bank account and credit card choosing tools.

BankingForAll  
A website dedicated to increasing access to basic banking services and addressing common issues that low-income individuals may have when opening a bank account.

United Way of Calgary Benefits Navigator  
An interactive tool that helps families and individuals access all the government benefits they are entitled to. Based in Calgary, Alberta.

**Professional Tools**

CFED - Corporation for Enterprise Development  
An American Asset Building network with excellent resources and research.

SEDI Website - Social and Enterprise Development Innovations  
Canadian research on Financial Literacy & Asset Building.

Mutual Fun  
These exercises were developed to be delivered in bank and credit union branches to help staff identify and explore barriers to banking and how they can offer better customer service to barriered or vulnerable individuals. Contact Courtney Hare at Momentum for more information, courtneyh@momentum.org.

Canadian Centre for Financial Literacy  
The CCFL helps organizations serving low income Canadians by providing training, program support, evaluation tools and an online community for practitioners.

Alberta Action to End Poverty  
This network has published two compelling and comprehensive reports on the cost of poverty in Alberta.
